

# *Buckhorn Presbyterian Church*

Buckhorn, Kentucky

"The Log Cathedral" — Completed in 1928, the Buckhorn Church was built completely out of logs by the people of this Perry County mountain community (and is considered the largest structure of its kind in the world). The historical marker memorializes Dr. Harvey Murdoch, who served church and community as a missionary-educator from 1902 until his death in 1935.
